FOREWORD

The Constitution requires each house of the General Assembly to keep a Journal of its proceedings. The Journal is intended to assure a public account of legislative activity and constitutes the final official record of action by the General Assembly.

Under the provisions of Section 6.161, 6.162 and 57.151 of the *Kentucky Revised Statutes,* the Legislative Research Commission is responsible for comparing, editing, correcting, and publishing the Journals as approved by each house of the General Assembly. This volume represents the fulfillment of that obligation.

The text of a bill is spread in full when it receives a first reading. The roll call on passage of a bill is indicated upon its receipt of a third reading. Simple and concurrent resolutions are printed on first reading when applicable or when adopted, and joint resolutions are treated as bills. A table of actions on bills and resolutions is appended.

Mrs. Shan Gray prepared the House Journal for the First Extraordinary Session of 1971. The edited copy and index found in this volume reflect the cooperative efforts of the research section of the Commission's staff.

Text of an Address by the Governor

EXTRAORDINARY SESSION OF THE
KENTUCKY GENERAL ASSEMBLY

Joint Session

Frankfort, Ky., February 25, 1971

In order that the citizens of Kentucky might, as nearly as possible, be equally represented in the affairs of legislative government, our Constitution provides that each ten years, the General Assembly shall redistrict itself to so secure the populous.

The Courts have affirmed the wisdom of that provision.

Despite the clarity of that mandate, the convening of this Special Session represents only the second time since 1892 that the Legislature has been voluntarily summoned to consider the equitable reapportionment of Kentucky's legislative districts.

Tonight, for the second time since the adoption of the present Constitution, the legally complex and politically quarrelsome task of reapportionment in Special Session and as ordained by the Constitution is being willingly, openly and voluntarily undertaken, rather than at the point of a judicial pen or under the duress of legal action.

Your deliberations should be conducted in that same spirit.

I trust that this is your intention, as evidenced so clearly and so commendably by the efforts which have been put forth to prepare for this Session.

Let me publicly pay tribute and congratulate those of you who have made such an impressive beginning toward the creation of an acceptable and workable plan of reapportionment.

May I also implore you not to squander the efforts and dollars invested in this effort toward Constitutional compliance.

In the interest of the people that you represent, I ask that you not resort to the desperate patterns of selfish factionalism and partisanship that some have predicted for this Session.

Instead, you are encouraged to put an end once and for all to the old political patterns and to signal the beginning of an even brighter new era of responsible, courageous, enlightened legislative action.

This goal, so long aspired, but so long denied to the people of Kentucky, is now within reach.

I have steadfastly believed you could attain this goal.

It was on the strength of that belief that I have endorsed a number of proposals designed to strengthen the people's branch of government and free it from the heavy yoke imposed by some of the previous governors.

For example, during the last three years your interim committees were fully financed for the first time and you were permitted to draft your own legislative budget.

Clearly, what we have seen in Kentucky the past three years has been the establishment of a new benchmark of legislative independence by the General Assembly.

In keeping with that progressive trend, tonight I pledge to you and to all Kentuckians that legislative independence without Executive interference will be the hallmark of this Special Session.

In return, the people of Kentucky have a right to expect that your time and their money will not be wasted on partisan gerrymandering.

If blatantly political and discriminatory measures are enacted, they will only sabotage the vital mission of the Assembly and needlessly involve the Executive and Judicial

branches of government in a matter that is uniquely yours to resolve.

I believe that you are in a much better position to reapportion your own districts than even the most competent and impartial court.

You have at your disposal – and in your midst – sufficient combined legal talent to know the judicial requirements of a fair and equitable reapportionment plan.

In addition, certainly you have been advised of the many judicial precedents on redistricting. They should be of help in illuminating your course of action.

It should be perfectly clear that if these guidelines are flagrantly abused . . . if a plan is devised that is obviously political in nature . . . and if any group or any section of our state is discriminated against, THAT PLAN WILL BE STRUCK DOWN.

Any miscalculation of this can only be construed as deliberate denial of the right of our people to equal representation.

Knowing you are aware of the fact that each day of this Special Session costs between eight and eleven thousand dollars, and knowing you are anxious to complete this task at a minimum cost and in such time that you can return to your families and businesses as soon as possible, I wish you Godspeed in your deliberations.

With deligence in approaching this task, with fidelity to the reassuring pattern of responsible action that has been established thus far, and with courage marking your pursuit of an equitable solution to this difficult problem, I am confident that you can seize this truly unique opportunity to acquit yourselves with honor as servants of the people.

Representative McBrayer moved that the Joint Session be dissolved. Agreed.

Speaker Carroll resumed the Chair and called the House to order.

Section 2. The House of Representatives in dividing the Commonwealth of Kentucky into representative districts states the following as public policy:

It is the desire and responsibility of the General Assembly of the Commonwealth of Kentucky to realign the boundaries of the various legislative districts in conformity with the Constitution of Kentucky and of the United States of America; and

The objective has been to develop a realignment plan with substantial equality of population among the various districts, so that the vote of any citizen is approximately equal in weight to that of any other citizen in the Commonwealth;

This legislation provides for reasonable and proper balance between rural and urban population, between minority groups and among the geographic regions of the Commonwealth;

This legislation recognizes the integrity of existing county, city and other political boundaries within the Commonwealth, although giving recognition to such boundaries makes exact population equality between legislative districts impracticable (due in part to the 120 Kentucky counties, which is the largest number of counties in a state of similar size and population);

The difficulty in achieving a low percentage variation among districts is magnified by dividing a relatively low population into a relatively high number of districts;

This legislation establishes a reasonable ratio between the largest and smallest districts and a reasonable balance among all

districts (a minimum of 49% is the least percentage of population which could be represented by a majority of the House of Representatives);

This legislation represents a reasonable attempt to preserve stability in the representative form of government by making a minimum of changes in existing legislative districts.

Section 2. The House of Representatives in dividing the Commonwealth of Kentucky into representative districts states the following as public policy:

It is the desire and responsibility of the General Assembly of the Commonwealth of Kentucky to realign the boundaries of the various legislative districts in conformity with the Constitution of Kentucky and of the United States of America; and

The objective has been to develop a realignment plan with substantial equality of population among the various districts, so that the vote of any citizen is approximately equal in weight to that of any other citizen in the Commonwealth;

This legislation provides for reasonable and proper balance

between rural and urban population, between minority groups and among the geographic regions of the Commonwealth;

This legislation recognizes the integrity of existing county, city and other political boundaries within the Commonwealth, although giving recognition to such boundaries makes exact population equality between legislative districts impracticable (due in part to the 120 Kentucky counties, which is the largest number of counties in a state of similar size and population);

The difficulty in achieving a low percentage variation among districts is magnified by dividing a relatively low population into a relatively high number of districts;

This legislation establishes a reasonable ratio between the largest and smallest districts and a reasonable balance among all districts (a minimum of 49% is the least percentage of population which could be represented by a majority of the House of Representatives);

This legislation represents a reasonable attempt to preserve stability in the representative form of government by making a minimum of changes in existing legislative districts.

The remarks of the various Representatives are as follows:

Remarks of Representative Bruce Blythe—32nd District:

Mr. Speaker, Ladies and Gentlemen of this House: I wish to voice my opposition to the Senate redistricting section of House Bill 1, the Second Committee Substitute. I must register my vigorous protest to the obvious gerryermanding displayed by our colleagues in the other Chamber. If we are to redistrict as fairly and as equitably as is possible — as has been made mandatory by the Constitution — then we should do so without regard to personal preference or political advantage. I am voting for this bill — but with deep reservation as to the attached Senate bill.

Remarks of Representative Julian M. Carroll —3rd District:

Since I am voting "Yes" for the passage of House Bill 1, I think it very important that I explain that I am voting yes with reservations. First, I am totally disappointed in Senate Bill 1 and, therefore, oppose it in its present form as it appears in House Committee Substitute #2. I particularly oppose the Senate Bill 1 provisions with relation to Kenton, Grant, Pendleton, Bracken and Robertson counties; also the Senatorial District division in Fayette County and the division of the Senate Districts in the Harlan County area. I am also displeased

with the division in the Senate districts as particularly relate to Scott and Anderson counties.

My feelings concerning these questions will be reflected in my vote on Senate Bill 1 raised before this Assembly.

With respect to the House portion of House Committee Substitute #2, I have a number of reservations with the bill, but, in good conscience, I must vote yes since it reflects great improvement over the present law and extends to the people of Kentucky the principle of equal representation. I continue to be disturbed over the unnecessary division of some counties in order to achieve mathematical perfection in some of the House Districts involved. I believe that the Constitution and decisions of our courts permit greater latitude than is contained in House Committee Substitute #2.

As concerning Senate Bill I, have voted yes on the amendment proposed to Senate Bill 1 affecting the Kenton County senatorial district, Fayette County senatorial district, and the Harlan County Area senatorial district. Since the bill has now been amended in these instances, I can vote for Senate Bill 1, even though I still have some reservations with respect to the Senatorial Districts in Central Kentucky.

I am voting yes for Senate Bill 1, as amended, because I find it is a substantial improvement over the existing law and it gives all Kentuckians the right of equal representation.

Remarks of Representative William "Bill" Donnermeyer, 68th District:

I am voting "aye" on House Bill 1.

It is my feeling that the Bill was derived from an honest attempt and enormous and considerable hard work to try to conform to the Constitution of the Commonwealth and the Constitution of the United States, keeping fairness, environment, and common interests of the people of the Commonwealth above all.

I do not feel that the Senate portion was arrived at with these things in mind in a few areas.

I am losing some wonderful Kentuckians and also gaining

wonderful Kentuckians to which I pledge to try to represent them to the best of my ability.

Remarks of Representative Ralph Graves—1st District:

It is my intent, by voting in favor of House Bill 1, to express to my fellow Kentuckians my belief that the reapportionment plan we approve here today is a fair and equitable one. We have considered reapportionment for both the House of Representatives and the Senate. To those members who watched as their home district was changed goes my sympathy. It was necessary, however, in order to rearrange the total number of districts to conform to the pattern of residency of our state's population. I congratulate each of you who helped bring reapportionment into being.

Remarks of Representative Gene Huff—85th District:

My reasons for voting "no" on Committee Substitute No. 2 to House Bill 1 are as follows:

1. I was against the splitting of county boundaries.
2. I did not support the Senate bill as attached thereto.
3. I do not feel that the bill will comply with the Federal court's ruling.

Remarks of Representative Phillip E. King—64th District:

I am compelled to vote against Committee Substitute to HB 1, because it contains the substance of Senate Bill 1 to which I am unequivocally opposed because of: (1) it is a flagrant gerrymander designed by the Senate to satisfy the political ambitions of individual Senators in total disregard to the best interests of the people of the five county area of Northern Kentucky, comprising Senate Districts 23 and 24; (2) being under oath to uphold the Constitution of the United States and the Commonwealth of Kentucky, I must recognize and oppose the configuration making up Senate District 23, because Senate District 23 clearly fails to meet the requirement that the geographical area must be contiguous; (3) Senate Districts 23 and 24 totally ignore the social and economic interest of the various peoples in the five county area of Northern Kentucky and indiscriminately

groups rural and urban so as to effectively deny the rural people a voice in electing a rural-oriented senator.

Remarks of Representative Jerry Kleier—37th District:

Although the second Committee Substitute for HB 1 did not solve all the problems of redistricting and did leave a lot of unanswered questions in regard to the "one man, one vote" rule, I do believe it is the best possible that we can come up with at this time, with the fewest possible glaring mistakes, and therefore I voted in favor of the bill.

Remarks of Representative Denver C. Knuckles—87th District

Kentucky has been a Commonwealth since 1791. This is the first time in the history of this great Commonwealth that the General Assembly has so evenly distributed the population and given so fair and equal representation to members of the General Assembly.

What we have done here, though not perfect, is an excellent start in the right direction.

Remarks of Representative Richard H. Lewis, 6th District:

Believing that this bill represents the best effort possible by the Committee on State Government and the members of this House to draft a bill consistent with the Supreme Court's "one man — one vote theory" and our desire to provide effective representation for our constitutents, I am voting for this reapportionment plan.

I wish to thank the people of Caldwell County for assisting in giving me an opportunity to represent the 6th District. Through the years they have accorded me honor beyond my fondest dreams. I shall always be indebted to them for their many kindnesses. I am genuinely sorry that they will no longer be a part of this district.

In addition I welcome Crittenden County to the 6th district. I shall look forward to serving them.

Remarks of Representative Gross C. Lindsay—11th District:

Mr. Speaker: In explaining my vote, I wish to again state

my opposition to the splitting of counties. However, the powers that be have decreed that we must redistrict and that redistricting be done with the prime consideration being mathematical. This, I feel, is a mistake since I feel that those individuals who have been split off from their parent county will be disfranchised rather than have a greater or equal voice.

There is also the very real chance that in the future the splitting of counties could become a very potent partisan political weapon. This would be especially true in the term immediately prior to the time when the General Assembly would or could be called into a session to redistrict.

Therefore my "yea" vote on this bill represents a vote for a good job done under the most adverse circumstances but it is against theory of what would be in the best interest of the citizens of the state of Kentucky.

Remarks of Representative Guy Lovins—5th District:

We were called into a special Legislative Session, at the expense of the taxpayers, for the purpose of redistricting our Great State.

I have done my best to represent the interest of the people of my district; at the same time I have tried not to jeopardize the complete welfare of the entire state. I have voted for the passage of House Bill Committee Substitute 2.

Remarks of Representative Joseph McBride—7th District:

Mr. Speaker, Ladies and Gentlemen of the House, you have before you an amendment to the Committee Substitute for House Bill 1. I'd like to explain the amendment to you and will attempt to be as brief and to the point as is possible. First of all my amendment calls for splitting one more county than the substitute bill calls for, but I submit to you the splitting of the particular county I have in mind is not only justified but rather this – it is my opinion that the split referred to is demanded of us if we intend to honor the "one man one vote" decision in spite of its intention. (I'll come back to this.)

For now, let me briefly explain that the Seventh District is now comprised of Crittenden, Livingston and Union Counties.

This equals 31,514 people or 2.15% from the desired 32,193, virtually a perfect district. McCracken County contains two legislative districts, Nos. 3 and 4. The figures I have available show District No. 4 as being some 7,000 people short of achieving the standard. Immediately adjacent to McCracken County lies Marshall County, which is presently joined with Lyon and Caldwell counties to make District No. 6. These three counties have a total population of 39,122 which is approximately 7,000 people over the ideal 32,193.

So in essence you have three districts involved – one is virtually perfect, mathematically, socially and economically; one is approximately 7,000 over; and, one is approximately 7,000 short. In this instance it appears logical and sound to me to leave the perfect district alone and let the district that is over give to the district that is under. This way you rearrange 7,000 people with one move and thereby create three almost perfect districts. As opposed to my thinking, the Committee Substitute calls for the moving of 7,596 from the Seventh District to the Fourth District, moving 6,000 more people from the Seventh District to the Sixth District, and then turn right around and move 13,179 people from the Sixth District to the Seventh District for a total of three moves and 26,735 people. I'll confess ladies and gentlemen the logic in this thinking escapes me.

Now back to the earlier statement I made regarding what I feel was a "split" that we would be obligated to make if we are to honor the "Spirit" of the one man one vote decision. I'll call your attention to District No. 5, 8 and 9 (all listed on the front page of census list by district). You will note that District No. 5 is 12.79% over, while Districts No. 8 and 9 are shown as being 12.68% minus population. This represents a variance of some 25.47%. I would point out to you that these districts are contiguous and could be brought closer into the desired range with the splitting of Trigg County in a manner that would give District 8 and 9 an additional 2,500 people each. True enough this would not achieve perfection but it would at least make an honest attempt in that direction. I recognize there is now, has been, or will be shortly an influx of people into Christian County by virtue of the Army base located there. But to those of you that have been in the Military, I believe you can appreciate the fact that to apply the term "permanent" to military

units would be stretching the point just a little. In addition, it's my understanding that as far as population goes, the prime consideration is the census count of 1970 as inaccurate as it may be.

By comparison, Warren County now has two districts and more population than Christian County, yet one of the gentlemen from Warren is being called upon to represent 5,600 additional people from the great county of Simpson, while Christian County is being permitted to be a part of a 25.47% variance that is totally unnecessary. Where is the fairness in this, or for that matter, where is the fairness in rearranging 26,735 people, when it's only necessary to rearrange 7,000 or less.

Remarks of Representative Lloyd McKinney—79th District:

Mr. Speaker, I hate to see my friends in Estill and Owsley counties go, although the steam roller has pressed my pants and I am now trying to save my people and myself from being smashed up. I would like to welcome that part of Madison which was given to me into my District. I will do my best to serve you well. I vote "yes" on the bill.

Remarks of Representative Ralph Mitchell—58th District:

We recognize that great and sincere efforts have been expended to faithfully perform the task assigned to this Legislature by the special session call. I fear, however, that the **HB 1** on which I am about to vote is an accumulation of numerous compromises rather than the court mandated "good faith effort" to comply with the equal representation principle. I fear, that we have been victimized by what I believe to be unfounded and unhealthy "county line loyalty".

These comments are not born of any dissatisfaction with the treatment of District 58—it is unchanged, but I wonder whether we have met the test by which **HB 1** will be measured.

Remarks of Representative James E. Murphy—67th District:

Realizing the monumental task of redistricting the state, and the attempt to be fair and equitable and yet abide by the Court's

ruling, I have to congratulate the committee for the fine job they did.

On behalf of Campbell County, I am happy we have retained our 3 representatives in Campbell County. I personally will take an additional responsibility and I welcome it, as well as I welcome the people of Southgate and Wilders to the 67th District, the fine people whom I have had the pleasure of serving for 12 years. I will make every effort to give the 4,000 new people in my District every attention and every advantage of my experience in the General Assembly.

Remarks of Representative E. T. Reed–61st District:

I would like to explain the Extraordinary District we are making out of the 61st. It starts within 8 miles of Vevay, Indiana, stretching in an easterly direction 100 miles to Augusta, Kentucky or just across the river from New Richmond, Ohio, comprises of Owen, Grant, Pendleton, and Bracken Counties, with 35,645 people, 21,000 registered voters and an area of some 4,000 square miles. The main roads and rivers run North and South making this a cross country district. To confuse this issue some more, our elite colleagues of the upper chamber have given this area parts of three Senate seats, two of them 80% urban oriented. I was led to believe by our Subcommittee on State Government, the main consideration other than simple numbers would be the interest and compatibility of the people. This is certainly a reverse of that thinking in the Senate seats. To sum this up, this District 100 miles long, 38 miles across, will have three Senate seats, 2 U. S. Congressmen, 14 independent voluntary fire departments, all for 1 House member. I have made numerous suggestions to our Subcommittee on Reapportionment and worked with them diligently to change the posture of the 61st and evidently to no avail.

I would like to challenge any or all of you, ladies and gentlemen, to explain to me, how one House member can effectively or adequately represent an area this large keeping in mind I will have four complete sets of county governments and six complete school districts.

Mr. Speaker, until this happens, I will have to vote "no" on this Bill.

Remarks of Representative Jon E. Rickert—25th District:

Beginning with the interim committee system several months ago, up to the present moment, our committee has worked very hard in good faith to draft the best realignment bill in conformity with the Constitution of Kentucky and of the United States.

The objective has been to develop a realignment plan with substantial equality of population among the various districts, so that the effective voice of any citizen is approximately equal in weight to that of any other citizen in the Commonwealth.

This legislation recognizes as much as possible the integrity of existing county boundaries within the Commonwealth.

The difficulty in achieving a low percentage variation among districts is especially magnified in the House because of dividing a relatively low population into a relatively high number of districts.

I vote today for this combined Senate-House package bill with objections to certain portions of the Senate portion, which I intend to voice tomorrow when the Senate bill will be considered separately. Many portions of the House portion do not suit me personally, but with all things considered, I believe it is the best we could do with the many serious problems with which we were faced.

Therefore, Mr. Speaker, I move you, sir, for the passage of this bill.

Remarks of Representative Carl J. Ruh—63rd District:

I agree with **HB 1** and Substitute; however. I disagree with the Senate proposal in the Northern Kentucky Senatorial District No. 23 and District No. 24 which affects the metropolitan and urban area in Northern Kentucky.

Remarks of Representative John E. White—90th District:

I know the Gentleman from Perry, the Gentleman from Laurel, the Gentleman from Knox, and the Gentleman from Letcher will serve my people well.

When this bill passes, I will no longer have a seat in this House. My District that I now serve is only 6% short of the required number of people. This District should have been left alone. I will not and cannot vote for a bill that is so obviously political gerrymandering.

Surely there must be a reason for this.

Could it be because my home county's patronage man is so dead-set in defeating me? He tried in 1969 and failed. Did he succeed in 1971 by splitting my District in four different ways?

I have served in this House for 12 years. I served under two Democrats and one Republican Governor. It is obvious that I fared worse under a man of my own political party.

I wish we had taken more time, used better judgement and presented a far better and more accurate bill for our consideration.

I have created many friends, since 1960, from both political parties. I want to thank all of you for your concern in this injustice. Thank you.

Remarks of Wilson W. Wyatt, Jr.—34th District:

While it would be my desire for the 34th Legislative District to remain the same as it was when I was elected to office, it is my responsibility to the Constitution and to equality in representation to vote for this bill and for the changes in my District.

Representative McBrayer moved that the House adjourn until 10:00 a.m., Thursday, March 11, 1971.

SR 4, A CONCURRENT RESOLUTION requesting and petitioning the President and the Congress of the United States to establish River Grant Colleges as an extension of the Sea Grant Act of 1966.

WHEREAS, this nation is blessed by a number of "Great River Systems" such as the Mississippi, Missouri, Ohio, Colorado, Columbia, Hudson, Delaware, Yukon, and many others, and

WHEREAS, fresh water in the world is only about 2% of the water available, much of which is in the frozen wastelands of the North, and

WHEREAS, the Nation's history and development has been inseparably linked with its great rivers and its continued development depends on these same rivers, and

WHEREAS, waterborne commerce is greater on the Nation's rivers than even on the Rhine and other great rivers of Europe, and

WHEREAS, water sports and recreation are prime among the Nation's industries and attractions, and

WHEREAS, pollution, misuse, and abuse of these resources threaten to deprive us of their use and enjoyment and forever cut off the development of these vital resources for our citizens for years to come, and

WHEREAS, this nation has developed the most efficient agricultural and industrial economy in the world, largely through the efforts of study and research, and

WHEREAS, the Congress of the United States, over a century ago, recognized the need to establish Land Grant Colleges to further agricultural research and development, thus giving us the highest standard of living of any nation and allowing us to feed over half of the world, and

WHEREAS, the Congress of the United States recognized an additional need in 1966 in establishing a program creating Sea Grant Colleges which allow for the research, development and proper uses of our seas, bays and estuaries and the role that they will play in the future lives of the citizens of this nation, and eight universities are now engaged in this program that they may make a contribution just as the Land Grant Colleges have made to this nation for over a century, and

WHEREAS, the future of the nation and this Commonwealth depends upon the comprehensive total development and use of our rivers and streams and a more complete knowledge of them is needed for these purposes, and

WHEREAS, the colleges and universities have demonstrated through the Land Grant Colleges and are now demonstrating through the Sea Grant Colleges that they have and can aid tremendously in this effort, and

WHEREAS, our rivers and streams will play an increasingly vital role in recreation, transportation, public health, industrial processes and fish and wildlife conservation, it is necessary that they be studied, conserved and used in such manner as to provide the best possible service for the nation and the Commonwealth,

NOW, THEREFORE,

Be it resolved by the Senate of the General Assembly of the Commonwealth of Kentucky, the House of Representatives concurring therein:

That the General Assembly of the Commonwealth of Kentucky respectfully requests that the President of the United States recommend to the Congress the enactment of legislation creating "River Grant Colleges" to study the many problems hereinabove set out and to provide for the orderly development and use of these priceless assets and natural resources.

That copies of this Resolution be sent to President Richard M. Nixon, Secretary of the Interior, Rogers Morton, and all members of the Congress of the United States, Wm. Ruckelshaus, Director of Environmental Protection agency and the Chief of the Army Corps of Engineers.

Agreed.

Representative Blythe moved the adoption of the following SR 8:

SR 8, A CONCURRENT RESOLUTION requesting and petitioning the Congress of the United States and the Department of the Army to rescind the restricted area designation for certain river areas adjacent to Jefferson and Oldham Counties.

WHEREAS, the Ohio River in and around the Louisville pool, has an increasing number of pleasure boats and the metropolitan area surrounding Louisville is approaching a population of one million, and

WHEREAS, the number of pleasure craft in the Louisville area, which includes Jefferson and Oldham Counties in Kentucky and Clark and Floyd Counties in Indiana, is in excess of 12,000, and more recreational areas are needed to handle this already numerous and ever increasing number of boats, and

WHEREAS, that "ageless interstate" the Ohio River, carries more commerce than any other stream in the world. There are numerous 1,200 foot "tows" (larger than the Ocean liner "Queen Elizabeth" or the battleship "U.S.S. Missouri") which, due to improvements in propulsion, travel at ever greater speeds than ever before, and

WHEREAS, the United States government has recognized the emergence of increased recreational boating with the creation of the Environmental Science Services Administration, and

WHEREAS, for many years small boat owners had the use of a beautiful, navigable stream (navigable in fact and not just in administrative fiction) in Clark County, Indiana, which is known as Fourteen Mile Creek and was formerly graced by an amusement park known as Fern Grove or Rose Island. The creek is located near the famed "Devil's Backbone" and for many years served as a "safety harbor." With the advent of World War II, the creek together with adjacent land, was restricted and placed "off limits" to the public because of the construction of a rocket plant which was used for national defense. With the exception of a very short period following

World War II, the area has remained restricted and is still "off limits" at the present time, and

WHEREAS, the facility the restricted area was designed to protect is no longer active and has been in an inactive status for some time, there is no set logical, or necessary reason for the continuance of this area on a security restriction list, and

WHEREAS, the United States Government in Technology Report #25, known as the Tennessee River Navigation Systems report, found that "safety harbors" were needed at least every five miles because of the long "fetches" (distances over open water), and

WHEREAS, Founteen Mile Creek, located at Mile 589.9 below Pittsburgh, is the only area that can serve as a safety harbor between Six Mile Island Chute (Mile 597 below Pittsburgh) and Eighteen Mile Chute (Mile 582.6) or a distance of fifteen miles, which cover two long "reaches" of the river, giving many miles of open water which can become very rough and dangerous to the small boat owner, and

WHEREAS, the Louisville, Kentucky area is well-known to be one of the areas of greatest atmospheric pressure falls which cause great and sudden storms; and that this condition combined with severe summer thunderstorms, constitutes a great potential danger to boaters, and

WHEREAS, in addition to the aforementioned hazards the area is subject to late summer radiation fogs which make it impossible even for the large tows to safely operate, abundantly illustrates the need for safe harbors to which owners of small boats can flee in case of danger or inclement weather, and

WHEREAS, such a safe harbor is now physically available but is not administratively available, and

WHEREAS, the General Assembly of the Commonwealth of Kentucky does not wish to have the deaths of boaters and wrecked boats upon its conscience and does not have the power to remedy the situation by its own action alone.

NOW, THEREFORE,

Be it resolved by the Senate of the General Assembly of the Commonwealth of Kentucky, the House of Representatives concurring therein:

That the General Assembly of the Commonwealth of Kentucky respectfully requests that the Congress of the United States and the Department of the Army remove the outdated and unnecessary restricted area designation from the stream known as Fourteen Mile Creek at Mile 589.9 of the Ohio River so as to avert possible tragedy because of the lack of a suitable safety harbor in that area.

That copies of this resolution be sent to all members of the Kentucky delegation to the Congress of the United States and the Secretary of the Army.

Agreed.
